TUBERCULOSIS

Causes Death Of Well Known Citizen.

Mr. L. W. Perry died yesterday morning at 5 o'clock at the home of Mr. J. M. Dillon on East Nineteenth street after an illness of long duration of tuberculosis, aged 61 years. Last January Mr. Perry went to Arizona, in an effort to regain his health, but there was no improvement in his condition and he returned here about a month ago. He is survived by six children, four of whom live here and two reside at Phoenix, Arizona. He was a brother of Messrs. J. A. Smithson and D. A. Means, of this city, and Mrs. Fannie Crabtree, who resides five miles north of this place.

Mr. Perry was a member of the Cumberland Presbyterian church, holding membership with the Norris City, Ill., church.

His funeral services will be held at Mr. Dillon's residence at 10 o'clock this morning and the interment will take place in Riverside cemetery, conducted by the Odd Fellows lodge.

AGED LADY

Suddenly Stricken And Dies From Heart Trouble.

Mrs. Eliza M. Huffman, widow of George Huffman, died Thursday morning at the home of her daughter, Mrs. Brenda Harlow, aged about 75 years. She had been suffering from an attack of pneumonia, but the immediate cause of death was heart failure, her demise being rather sudden. The deceased formerly resided at Huffman's Mill, where her husband died about twenty-five years ago, but she had lived near the city with her daughter for four years. She is survived by two daughters, Mrs. B. B. Corban, of Corbandale, Tenn., and Mrs. Harlow. Mrs. Huffman was a member of the Baptist church. She was a most excellent woman and leaves many friends.

Funeral services were held at the residence of Mrs. Harlow yesterday afternoon, conducted by Rev. C. M. Thompson, and the interment took place in Riverside Cemetery.

If we should miss getting your package of laundry or have trouble any way about your work why twice Hopkinsville Steam Laundry is willing at all times to hear and adjust any reasonable complaint; our work is the best and most reasonable in price.

OCTOGENARIAN.

North Christian Citizen Dies Aged Eighty-five.

W. B. Long, one of the oldest citizens of North Christian, died at the home of his nephew, Carr Long, near Crofton, a few days ago. He was 85 years old and much esteemed by a host of friends. Mr. Long was a Democrat, took great interest in public affairs, and was an active worker for his party for a number of years.

SURGICAL

Operation Stopped by Death of Subject.

Mr. L. R. Kenner, on Wednesday, received a telegram informing him of the death of his brother-in-law, B. L. Norris, of Blackton, Ark., and Mrs. Kenner left at once for that place. Mr. Norris had been ill for some time and died suddenly while on an operating table. His wife was formerly Miss Ivy Cayce, daughter of the late Ike Cayce, of Beverly, this county, and she and several children survive.

Kneels In Prayer At Salvation Army Meeting and Then Commits Suicide.

Los Angeles, Cal., 11.—While Ensign Payton, of the Salvation Army, was exhorting penitents to come forward and confess their sins last night, Frank A. Campbell, aged twenty-four, a Kentuckian, walked up the aisle, knelt in prayer for a moment, and then drew a revolver and fired a bullet into his right breast. He died shortly afterward at a hospital. He had been there three months and was in ill health.

Cansler-Jenkins.

A marriage license was issued Thursday to F. J. Cansler and Miss Minnie Jenkins, young people living near Clardy. The wedding is scheduled for 2 o'clock p.m., tomorrow. Rev. P. P. Gladdish will perform the ceremony.

New Citizen.

W. L. Purdy, of Princeton, has moved to this city and opened a restaurant on Virginia street, near 6th.

GEN. NAVARRO SURRENDERS

Rebels Capture Juarez After a Bloody Battle.

GEN. MADERO IN POSSESSION.

Number of Killed Estimated at Sixty-Five, Over Two Hundred Wounded.

El Paso, Tex., May 12.—Gen. Madero's insurrecto army, after one of the bloodiest battles of the revolution, captured Juarez Tuesday and established therein the provisional capital of the Mexican Republic. Gen. Navarro and his entire garrison, composed of about 500 men, surrendered to Gen. Madero after a strong resistance. It was estimated that 50 Federals and 15 rebels were killed and about 250 wounded on both sides during the fighting.

MADERO ADDRESSES PRISONERS
Gen. Madero himself, when he arrived at the corral where the Federal prisoners are quartered, made an address full of sympathy and encouragement, lauding them for their bravery and assuring them that in his heart, as well as in those of his men, there was no feeling of enmity, but of uniform friendliness.

"You fought for Gen. Diaz," he declared at the conclusion of his speech, "because you had to; because you were a part of that system which we are trying to dissolve. In a few days perhaps peace will be restored. You soon will be free. If the war is to be continued you can have your choice of being paroled or joining the army of liberation. In the meantime we shall treat you as brothers, not as foes."

With shouts of "Viva Madero" the vast throng of prisoners and insurrectos who gathered to hear him threw their hats skyward and shouted in most deafening applause.

EFFECT IN CAPITAL.

Mexico City, May 11.—There was no one in the Capital last night, not under the official ban of silence, who does not admit that the capture of Juarez by the revolutionists adds immense prestige to the flag of revolt and that as a moral it is bound to greatly augment the strength of the insurrecto cause.

The war began last November and Gen. Navarro took the field in Western Chihuahua. Skirmish followed skirmish and ambush followed ambush, with no apparent advantage to either side. It has been a fight of the insurrectos led at first by Orzoco and later by Madero against Navarro. The net result of the long campaign has been that the Federal force was divided and that Navarro's diminished command was caught at Juarez and decisively beaten.

Navarro was not accounted brilliant, but he was given credit for bravery and desperation. Correctly or not, he was quoted in this city as having assured that he would die rather than surrender. Not one person in ten but believed that he would hold his position in the adobe village on the south bank of the Rio Grande. News that he had surrendered, therefore, came as a surprise, but, it is generally admitted, not as a disappointment to 90 per cent. of the people.

FUTURE PLANS.

Juarez, Mex., May 11.—The insurrectos announced yesterday their determination not only to hold Juarez against any attack of Federal forces, but to prevent a fight in this city if possible. Plans were laid for a force of several hundred men to march south to meet Gen. Rabago, the Federal leader, who is reported to be on his way here from Chihuahua with a good-sized army.

The rebels already have about 300 men at Casas Grandes and will probably open fire on Rabago when he arrives.

Court of Appeals Affirms the Life Sentence For Murder

OF LITTLE ALMA KELLNER.

Entire Court Concurred In The Opinion By Judge Carroll.

Frankfort, Ky., May 12.—The Joseph Wendling case was affirmed by the Court of Appeals yesterday. Wendling must remain in prison for life for the murder of Alma Kellner, December 8, 1909, in St. John's church, Louisville.

Judge Carroll delivered the opinion on the Wendling case, and it is twenty-three pages long. The whole court sat in the case, and there were no dissents.

Gets Another Respite.

Acting Governor Cox has granted another respite of two weeks to Barker T. S. Anderson, who has been serving a term in the Eddyville penitentiary for irregularities in the conduct of the Owensboro Savings Bank and Trust Co. Gov. Willson gave him a respite of 30 days on account of his feeble health.

The Demand For Tariff Re-
form.

It is plain that the country is not
in a partisan mood, and that
business interests of all sorts—in-
cluding agricultural—would have
preferred a quiet year, free from
political and legislative agitation.
Neither Republicans nor Democrats
desired the extra session. But since
the President insisted upon calling
it, the country is plainly won over to
the idea of encouraging a great deal
of rapid and somewhat radical tariff
legislation. If there had been no
extra session, and the Canadian
agreement had not been pressed, the
country would have been entirely
ready to listen to the arguments in
favor of allowing the Tariff Board
to proceed in its own methodical
fashion, and to bring forward re-
ports from time to time in the fu-
ture which to have said.

vision, one schedule at a time, with
cautious sliding scale reductions run-
ning through a series of years. But
against its preferences, the country
found itself with an extra session of
Congress upon its hands. And it
discovered a courageous and harmo-
nious Democratic majority, willing
to face the responsibility of tariff re-
duction. And so there was a quick
veering about of public opinion last
month and an obvious relish in all
quarters for the idea of a very con-
siderable tariff reduction. It was
commonly held that the needed in-
formation was all in hand. The farm-
ers and consumers were heard de-
manding an average level of tariff
rates at least 30 or 40 per cent. be-
low the existing altitudes. Cour-
ageous persons were proposing the
immediate elimination of a number
of tricks and complications that have
been charged against various sched-
ules.

There seems to be quite as much
prevailing sentiment in favor of this
sort of tariff revision among the Rep-
ublican voters of the country as
among the Democratic. The coun-
try has developed far beyond the
need of the sort of legislation em-
bodied in the Payne-Aldrich meas-
ure. That bill two years ago was
created by a log-rolling of sectional
and locality interests, and a lobby-
ing of combined private interests.—

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine.

Dr. Pierce believes they have a perfect right to INSIST upon such knowledge. So he publishes, broadcast and on each bottle-wrapper, what his medicines are made of and verifies it under oath. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses and derangements, giving rise to frequent headache, backache, dragging-down pain or distress and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nervine and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Favorite Prescription." The dishonest dealer sometimes insists that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only a difference of profit. Therefore, insist on having Dr. Pierce's Favorite Prescription.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages cloth-bound. Address Dr. Pierce as above /

Hired Man's Little Graft

Through the Grocer He Sold His Employer the Apples From Her Own Orchard.

Out in the Oranges of New Jersey Mrs. Philip Carr owns a handsome farm, says the New York correspondent of the Cincinnati Times-Star. As she lives in the city it is about as expensive a proposition as owning a yacht. No farm owner who doesn't live on his place ever made a dollar in this neighborhood.

"I wouldn't care," said Mrs. Carr, "if I could only get good apples from my farm. There is a lovely orchard on it, but my hired man tells me that it doesn't bear. So I have to buy my apples."

Her guests told her that she certainly had good taste in the matter of buying apples. The dish in the middle of the table was heaped up with big, red globes. Her guests liked them so well that they insisted on finding out where they came from. Mrs. Carr gave them the address of her grocer. The grocer said he got them from a middleman in the Oranges. The guests, having nothing better to do and owning a large car that was eating its head off, rode out to the middleman the next day.

"We got some delicious apples from a grocer," they said. "He said he got them from you. We want to buy a barrel or two."

The middleman took the order at once.

"But I won't be able to deliver them until next week," said he. "That's when Mrs. Carr's hired man comes to town. They're all grown on her place."

That hired man has lost his job.

DELICATE MATTER

Long spurs and pale legs are a sign of old turkey. The gobbler, while it has less white meat, is supposed to have a better taste than the hen turkey.

When washing out a tub with coal oil to quickly remove dark rims, do not neglect to wipe later with clean water and dry well. The oil left on collects dust and makes a tub slippery.

To avoid constant running to the cellar have chains run from the furnace doors through the floor to some convenient spot on the first story. This will be found as easy way to check a furnace.

A room that is used constantly should have ventilators to purify the air. There are various patent arrangements, but the simplest form is to run a deep piece of glass on grooves inside one of the windows, which is always kept open behind it.

Never put bluing in cotton underwear, as it turns it yellow. Soak first in clear, cold water, then rub with soap, roll tightly, and let the garment soak for half an hour. Rub lightly on a board, rinse, and hang firmly, so the garment sags less in drying.

REALLY WONDERFUL LAWYER.

There was a prosecuting attorney in Texas whose methods were so dramatic and uniformly successful that he not only became the terror of evil doers, but an object of admiration, especially among the negroes.

Upon retirement from office he was at once much sought after by those charged with crime. The first two cases which he defended resulted in conviction, much to his chagrin.

An old negro who had watched his prosecution in admiring wonder and looked on with equal interest when he conducted the defense, accosted him just after his defeat and said: "Mars Earle, yo sho' is a wonder. No matter which side you's on they go to the pen just the same."—Case and Comment.

HIS SUSPICION.

REALLY TWO CHAIRS IN ONE

Piece of Furniture is Rocker in One Position and Stationary When Inverted.

From the number and variety of collapsible convertible and combination chairs of all sorts that are on the market, the designers would seem to have reached the end of their rope. Here comes a Californian, however, with an invertible chair which seems to be the simplest one of the lot. This is a combination rocker and standard chair, and all that is needed to transform it from one to the other is to turn it upside down, or right side up, whichever way you like to regard it. The chair is shaped like a piece of

mission-furniture, and the rockers, which are short, serve as curved arms when it is stationary. They are protected when down by a metallic sheath, which also figures as an ornament when they are up. The back is so made that it slides up and down in a groove and can be adjusted in whichever position is required. Withal, the chair is a sturdy and attractive piece of furniture, and is likely to be popular on its merits.

To avoid constant running to the cellar have chains run from the furnace doors through the floor to some convenient spot on the first story. This will be found as easy way to check a furnace.

A room that is used constantly should have ventilators to purify the air. There are various patent arrangements, but the simplest form is to run a deep piece of glass on grooves inside one of the windows, which is always kept open behind it.

Never put bluing in cotton underwear, as it turns it yellow. Soak first in clear, cold water, then rub with soap, roll tightly, and let the garment soak for half an hour. Rub lightly on a board, rinse, and hang firmly, so the garment sags less in drying.

Use of Baking Ammonia.

Baking ammonia (powdered rock ammonia) is used to some extent in pastry making, lemon biscuits (so feather light and delicate), are commonly made with it, but we would hesitate to recommend its use ordinarily for making bread. Like other salts and chemicals, the strength of the powder may vary considerably with the time and condition of keeping, and your best plan would seem to be to inquire of the druggist the specific amount to be used. It should be sifted free from lumps and is then sifted among the flour and used thus with the other ingredients in pastry making. It raises biscuits beautifully light and possibly similarly good results could be obtained with bread.

Sweet Potato Buns.

Boil and mash two potatoes, rub in as much flour as will make it like bread, add a little nutmeg and sugar to your taste with a tablespoonful of good yeast. When it has risen work in two tablespoonsfuls of butter cut finely; then form it into small rolls and bake on tins a nice brown. Serve hot; split open and butter. Good either for tea or breakfast.

Parsnip Cones.

Boil three good-sized parsnips and mash them very fine. Add to this a half cup of grated pineapple, butter, pepper, salt, a dash of nutmeg, a teaspoon of sugar, one egg, a teaspoon of good sherry and a tablespoon of cream. Add enough cracker dust to form them into little cones, and fry in very hot lard. Serve in napkin garnished with watercress.

AFTER 7 YEARS SUFFERING

I Was Cured by Lydia E. Pinkham's Vegetable Compound

Waurika, Okla.—"I had female troubles for seven years, was all run down, and so nervous I could not do anything. The doctors treated me for different things but did me no good. I got so bad that I could not sleep day or night. While in this condition I read of Lydia E. Pinkham's Vegetable Compound, and began its use and wrote to Mrs. Pinkham for advice. In a short time I had gained my average weight and am now strong and well." —Mrs. SALLIE STEVENS, R. F. D., No. 3, Box 31, Waurika, Okla.

"I owe my present good health to Lydia E. Pinkham's Vegetable Compound and Blood Purifier which I believe saved my life."

"My doctor knows what helped me and does not say one word against it."

Mrs. MARI JANETTE BATES, Box 134, Huntington, Mass.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, dislocations, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, and nervous prostration.

TWO CALLS.

To Same House By Fire Department.

The fire department was called to the Blumenstein residence, East Seventh street, twice Thursday night. The first alarm was at 7:30 and the flames were soon extinguished. About 2 a. m., fire was discovered in the same room and another alarm was turned in. The response of the company was prompt and the flames were soon put out.

It is thought that a window curtain coming in contact with a lighted lamp caused the first fire and the second probably resulted from some smouldering substance which was unobserved after the first flames had been subdued. The loss is probably \$200, and is covered by insurance.

COUNCIL CONTROLS

ALL STREET WORK.

Court of Appeals Affirms Circuit Court in Meacham-Reuter Suit.

Frankfort, Ky., May 10.—That city councils and not the courts should have control of street work, was a decision of the appellate court today in affirming a case of Conrad Reuter against the Meacham Contracting Company of Henderson.

Reuter was sued by the Meacham Company for \$382.05 alleged to be due for the construction of a concrete sidewalk, curb and gutter 110 feet in length and 14 feet wide on the east side of Green street, between First and Second streets, for which judgment was rendered. Reuter then instituted suit against Meacham, which was concluded today.

The contentions were whether the ordinance passed by two councils, was valid, whether the mayor's call for the council was legal, and whether W. Compton was a freeholder. The court settled these contentions in the affirmative.

The case came up before Judge Henson in the circuit court in the September, 1910, term, and he sustained the Meacham Company, following which the case was taken to the court of appeals by Reuter.

HAULING OFF THE GARBAGE

Hopkinsville is Being Cleaned As Ladies Direct Work.

GIVEN FULL POWER AND HELP

Hundreds of Loads of Rubbish are Being Used to Fill the New High School Yard.

Under the energetic management of the committee of ladies heading the Women's Civic Improvement League, there has been great activity displayed for the last four days in cleaning up the city. Up to the regular days set apart, about 85 loads of rubbish had been hauled away, the work being started two days ahead, as it was foreseen that there would not be enough available wagons to handle the business in two days. The contract for removing the trash was given to the Woodbridge Transfer Co., which is still hauling with all its wagons. Nine wagons were being used yesterday. The city is also running three teams, one new one being purchased Thursday for the summer work. The street sweeper has been run two nights on Virginia and South Main streets, piling up enough dirt to keep the teams busy all the week.

All of the dumps that are suitable are thrown into the back yard of the new High School and the fill thus made will be covered with earth. Some complaint was made that putrid matter was finding its way into the garbage and the mayor detailed Officer Denton yesterday to inspect all rubbish and not allow any putrid matter to be dumped inside the city.

Every precaution is being taken to conform to the law.

The cleaning up will continue today, as it was impossible to get through yesterday.

When they have finished this line of work the ladies will turn their attention to a crusade for whitewashing.

D. A. R. Tablet.

Annapolis, Md., May 12.—A bronze tablet to the memory of American seamen who gave up their lives to the cause of liberty in the revolutionary war was unveiled at the naval academy. Secretary of the Navy Meyer attended as the representative of president Taft. Congressman Lemuel E. Padgett, chairman of the house committee on naval affairs, was the orator of the occasion. The tablet is a gift to the naval academy from the Daughters of the Revolution.

Red Men in Council.

Owensboro, May 12.—The eighteenth Council of Kentucky Red Men convened in Owensboro this week, with about 500 delegates in attendance from the different tribes of the State. The next meeting will be in Bowling Green.

Spring Race Meeting.

Louisville, Ky., May 13 to June 8. For the above occasion the Illinois Central will sell round trip tickets to Louisville, as follows:

May 12 and 13, limit to June 9, \$7.10.

May 13, \$5.40, limit to May 15. May 18, 20, 25, 27, 30, June 1, 3, 6, and 8, for \$7.10.

Limit two days after date of sale. For further information call on local agent.

T. L. MORROW.

GEN. NAVARRO SURRENDERS

(Continued from First Page.)

Gen. Navarro, the captured Federal leader, who was paroled with his officers last night, spent the night in the same house with Gen. Francisco I. Madero, Jr., head of the rebels.

Rebel officers, however, have given strong orders not to harm any of the paroled Federals, and from the discipline which has been maintained by the insurrecto force heretofore, it is not considered likely that any mishap will befall them.

The rebels are now in possession of about 450,000 rounds of ammunition, several machine guns and field pieces, about 700 Mauser rifles and enough ammunition belts and other wartime sundries to wage furious warfare for some time to come.

CABINET FORMED.

Juarez, Mex., May 12.—Mexico's provisional government became an established fact yesterday with the naming of a cabinet by Francisco I. Madero, Jr., provisional president, and with the establishment of a capital at the captured city of Juarez.

The cabinet follows:

Dr. Vasquez Gomez, minister of foreign relations.

Gustavo Madero, minister of finance.

Venustiano Carranza, minister of war.

Frederico Gonzales Garcia, minister of the interior.

Pino Suarez, minister of justice.

Juan Sanchez Azcona, secretary to the president.

Secretary of War Carranza will have charge of the railways and telegraphs, and his first act was to grant permission for the repair of the Mexico Northwestern railroad. A gang of men immediately set to work on the roadbed south of Juarez.

Gonzales Garza will have charge of the mail service, and Secretary of the Treasury Gustavo Madero will direct the affairs of the customhouse.

ORGANIZED FORCE.

That the insurrecto army is more than an armed mob was shown today in the complete absence of looting and intoxication, and the quickness with which the shattered city was cleared of its dead and wounded. The embargo against visitors was removed during the morning and curious sightseers in thousands poured across the bridges leading from El Paso.

GIVE THEM PLAYROOM

CHILDREN NEED A PLACE FOR THEMSELVES.

Entire Family Benefited by the Arrangement—Simple Furnishings Always the Best for Such an Apartment.

The first good result of a playroom is the freedom and peace it gives to the entire family. The children have a place where they may be sent when family councils make their presence undesirable. They also have a place for their playthings, which will cease to litter the house at large. As soon as they have a room of their own they may be taught to understand something of the rule of mine and mine. A child without a room of his own is in an unenviable position. He lives in a place where he has no rights and no interest. He takes his meals in the dining room and he sleeps in a bedroom—probably shared with someone else, but in neither of these has he any possessions or any interest except eating and sleeping. The living room is a precarious place to start anything in, as it is uncertain when it will be needed by some one else, and if anyone is already there, play is sure to disturb him. He has no place to do anything. When, in desperation, he takes one he becomes an annoyance.

The ideal playroom has nothing in it except what is needed. It is a room that grows. If children are young, bare whitewashed walls are best. They can be decorated to suit the varying fancies of the children, and a fresh coat of wash each year will at a small cost present a new clean surface for the next stage of their development. When they are old enough to want wallpaper, let them select it. Let it be the cheapest possible, so that it may be renewed at a small cost. As for pictures, the unframed prints will satisfy aesthetic tastes for many a year, and when the desire for framed finished pictures comes the fever for passe-partout will come also and give an inexpensive method of decoration. If the room is a warm one no carpets are necessary, and in any event washable rugs are the best floor covering. An unstained table of white wood, a good-sized closet and a couple of chairs of the right height are the only furnishings needed. The toys of the children will make the room complete, and extra furnishings will come as the room grows.—Harper's Bazaar.

Precaution in Kitchen.

In many homes grave cases of poisoning have arisen through a careless disregard for the cleanliness of the cooking utensils or of their perfect condition. As soon as a copper saucepan shows signs of being at all worn it should be retinned, and in any case nothing of an acid nature should be allowed to remain in it while cooling. The same with regard to zinc and lead vessels, which are unsafe for cooking purposes. Those of tin, steel, iron or nickel are the safest to employ. Remember, too, that it is better to use a wooden spoon than one of metal when stirring milk or soups, and that before using baking tins you should grease them inside thoroughly either with butter or lard. In order to prevent them from burning it is well to take the precaution of sprinkling the shelves of the oven with salt.

Pertinent Hints.

The pancake turned with the long handle may be used to take light dishes from the open, and it will save many burns on the arm.

After washing a China silk dress do not hang it out to dry, but roll it up in a cloth for half an hour to absorb most of the moisture, and then iron on the wrong side.

Ihemstitched tablecloths and napkins can be nicely mended when the hemstitching breaks by fagotting the edges together with strong thread. This will wear as long as the article.

If half a bottle of olives has been used and you wish to keep the rest, add a pinch of salt to the brine, pour a teaspoonful of olive oil into the liquid and replace the cork.

Onion Puffs.

Make a good puff paste or light flaky pie crust, roll thin, and cut it into squares. Take as many white onions as there are to be guests and boil them in fair water until they commence to grow tender. Remove, drain and let cool a bit, then carefully cut out the center and fill the space with a half of a country sausage, butter, pepper and salt; fold each into square of the pastry, adding as much tomato dressing as it will hold. Bake in a moderate oven. When done serve individually with the tomato sauce, to which a grating of Parmesan cheese may be added. Garnish with thinly sliced green pepper.

Brinley "Rastus" Side-

Harrow and Cultivator

This cultivator is universally considered the best implement of its kind, and is extensively used in the cultivation of CORN and TOBACCO. Has heavy beam and adjustable handles. The standards and frame are made of high carbon steel, and will neither bend nor break.

Blades are so shaped that they throw all clods and grass to middles, and sift loose dirt to the growing plants. Rear standard can be lowered and front standard raised, so that the blades will conform to the shape of the row.

Equipped With Three Shovels, Fender and an Extra Set of Reversible Blades, as Show in Cut. Guaranteed to Give You Satisfaction.

Who Was There That You Knew?

IN the shadowy ranks of those who marched to defeat or death or victory fifty years ago in the mighty conflict that convulsed this great nation, is there father or grandfather or uncle of yours? Would you like to see a photograph of him in that long ago day of his youth—a photograph that he never knew was taken? Perhaps we can show you one; and in any case, we can tell you a story, stranger than any detective fiction, of 3,500 priceless photographs that were lost and are found again.

3,500 Long Buried Photographs of the Civil War

12 of These Pictures FREE For the Cost of Mailing.

THEY were taken by the greatest photographer in the United States of that day; they were bought by the United States Government for \$8,000; they were buried in the War Department for 80 years—they are buried there in plain sight, but a duplicate set was kept by the photographer—who died poor and broken down, that duplicate set was knocked from pillar to post for nearly 50 years, until it was discovered by a New England collector, J. Pierpoint Morgan, tried to secure the collection. President Garfield and General Benjamin F. Butler are in it. It was worth \$150,000—but with the help of the *New-York Review*, the entire collection has been gathered into 12 great volumes and is placed within your reach at less than the value of one of the photographs. It is the same *Imperial History of the Civil War* that cannot be beat. It tells the story of the War you never heard before. Taken under protection of the Secret Service, these photographs bring to light thousands of little-known places of the war; they penetrate to strange places and record strange things.

NO BIRTHDAY BOOK FOR HIM

Uncle David, Buying Present, Says
One of Them Brought Him
All Kinds of Woe.

As Uncle David Lane looked aimlessly and helplessly about the great department store he was approached by a smiling floor walker. "Is there any way in which I can help you?" he inquired.

"I want to get a birthday present for a lady," said Uncle David. "She lives next neighbor to me in the country; not so young as she was once, but not so old as she might be, and a good neighbor. There's three, four of us want to give her a present on her next birthday, and they've fixed on me to select it, seeing I was coming to town. Now could you suggest anything in the neighborhood o' \$2 in price?"

"That would buy one of our beautiful new birthday books, I think," said the floor walker. "The stationery department is—"

Uncle David planted his feet firmly, and grasped the arm of the brisk floor walker.

"You can guess again," he said, interrupting the fluent speech of his companion. "Twas a birthday book given to my first wife and carried round by her to the relatives that cost us her Aunt Maria's property, and madded Cousin Jonas's wife so she's never got over it, and broke up the engagement betwixt my niece Florry and her young man, when her folks thought at last she'd secured a partner, if he was kind o' under age."

"I won't go into all the circumstances to a stranger, but I wouldn't buy a birthday book, not if you's to offer to pay me for it. You tell me where the sofa cushions are. That's a safe present for a lady, according to my lights." — Youth's Companion.

HIS FAITH TRIED BY FACT

Scientist Knew Water Wouldn't Enter Submarine Boat, but Feared the Demonstration.

Everybody knows that if an uncorked bottle is placed mouth downwards in water the air in the bottle will restrict the entrance of the water, that is to say, only as much will enter as is required to compress the air in the bottle enough to equal the pressure of the water. If the air pressure could be increased not a drop would enter. This principle is made use of in submarine boats. These contain an air chamber in which the air pressure is made a trifle greater than the water pressure outside. When a door is opened in the boat no water enters and the crew are able to pick up sponges, oysters or other spoils at the sea bottom. It is told of a scientist that with great difficulty he was persuaded to trust himself under water in a submarine boat. When, near the bottom, it was proposed to unscrew the panel in the bottom of the boat, in order to let the scientist see the result, he was greatly alarmed, but in spite of his expostulation the door was thrown open to the water. Not a drop entered, however, and the learned man was reassured. Gazing on the smooth surface of the water, he remarked: "I knew it couldn't come in, and I know why it doesn't come in. But if I had not seen it I should never have believed it!"

THE POINT OF VIEW.

You have such strange names for your towns over here!" said a titled Englishman. "Weehawken, Hoboken, Poughkeepsie, and ever so many others, don't you know?"

"I suppose they do seem strange to English ears," said the American, thoughtfully. "Do you live in London all the time?"

"Oh, no," replied the Briton. "I spend part of my time at Chipping Norton, and then I've a place at Pokes-togg-on-the-Hike." — Housekeeper.

DIDN'T KNOW HELEN.

"Mamma," asked a little boy, "who are the Highwaters?"

"Highwaters? Highwaters?" said the mother. "I don't know any such family. Why do you ask?"

"Well, I heard Mr. Jones ask papa if he'd be over to the little game tonight and papa said he'd be there in spite of Helen Highwater."

OBSERVANT YOUTH.

"Is that man a bill collector?" said the new clerk.

"He may be in some places," replied the messenger boy, "but not in this office."

DUMB CHILLS AND FEVER.

Douglasville, Tex.—"Five years ago I was caught in the rain at the wrong time," writes Miss Edna Rutherford, of Douglasville, "and from that time was taken with dumb chills and fevers, and suffered more than I can tell. I tried everything that I thought would help, and had four different doctors, but got no relief, so I began to take Cardui. Now I feel better than in many months!" Cardui does one thing and does it well. That's the secret of its 50 years' of success. As a tonic there is nothing in the drug store like it. As a remedy for women's ills, it has no equal. Try it. Price \$1.00.

THE OFFICIAL SCHEDULE OF THE K. I. T. BASEBALL LEAGUE FOR SEASON OF 19

The second game with Morganfield was played yesterday afternoon with Johnson in the box for Hopkinsville. This was the last game before the opening game

with Clarksville next Wednesday. The game Thursday was 4 to 0 in favor of Hopkinsville. The one yesterday was in progress at the press hour. Hancock, Morganfield's best pitcher, struck out 7 Moguls Thursday. It is possible that he may sign with Hopkinsville.

The first half of 63 games closes July 18.

Ling, who was tried as a pitcher, was not fast enough.

Nairn hit the centerfield fence Thursday, the best hit of the season.

Three umpires have been announced—D. Conklin, H. T. Arnold and G. R. Smith.

A new catcher named Shirley was given a trial Wednesday and failed to make good.

Lyons made the first score of the season on the home grounds, in the game with McLean College.

The Moguls had played 9 practice games up to Thursday's game, winning all but 2 with Terre Haute.

Beasley, with Vincennes last year, is now with Terre Haute in the Central and is making good.

Those five straights from Clarksville next week will give the Moguls a good start for the pennant.

The Park concession this year has been sold to Frank DeGeorge, for \$110, which is \$50 more than it sold for last year.

McArthur, a student pitcher, with a speedy arm, was given a trial Wednesday in the practice game and showed up well. He came recommended as "college wonder."

The batting order in the Morganfield games was: Keeling, Zimmerman, Huhn, Lyons, Nalrn, Ireland, Jones, Bosche and Yon.

There will be no Sunday game tomorrow. The Moguls go to Russellville Monday for one game, the last before the season opens.

The Moguls played McLean College Wednesday and tried out some new men. The result was Hopkinsville 12, McLean 6. The College boys were allowed to use Binkley, their coach, who has signed with the Kitty team.

The new uniforms for use at home will be navy blue this year, the same worn by the Chicago cubs. They are expected to be here today. The traveling uniforms will be gray, as heretofore. The 12 red uniforms are for sale as they are too small for the big Moguls this year.

A slight change has been made in the location of the fence at the gate and a passway has been made to the bleachers in the rear of the grandstand. This year there will be no passing in front of the grand stand. A blind fence has also been put in front of the gate.

A. G. Dillard has been appointed special Park Policeman and will be in charge of the grounds during all games. His special duty will be to keep the fences clear of intruders and eject all persons seeking to get into the park without paying. Vehicles will not be allowed to stand in the street alongside the park. A special lot has been arranged inside for vehicles, including automobiles.

Continual worry about little things make us unable to cope with the big things.

BIG FORTUNE And Hopkinsville People May Get Some of It.

About sixty of the heirs of the large estate belonging to the Robb heirs met in Lexington last week and Judge Hazelrigg, of Frankfort, met with them and was employed to file suit at once to recover the estate, amounting to about \$50,000,000. The property comes from a man by the name of George Robb, who located at a German colony in Beaver county, Penn., nearly two hundred years ago. The colony now being extict, it goes to the heirs of George Robb, who are scattered all over Kentucky and Tennessee.

Mrs. J. B. Allensworth and Mrs. R. J. Carothers, of this city, daughters of Dr. E. C. Robb, deceased, seem to be direct heirs. Mr. Allensworth has been in correspondence with Judge Hazelrigg about the matter and will join as one of the attorneys in the litigation.

TWO HEIRS HERE

To the Tennessee Robb Estate of Several Millions.

Mrs. R. J. Carothers and Mrs. J. B. Allensworth are heirs to the immense Robb estate that the Robb family of Kentucky has organized to secure. Mr. Allensworth has been in correspondence with the other heirs in Central Kentucky and there is no doubt that his wife and her sister are in line for a portion of the millions to be distributed.

The world owes you a living, but you must be your own collector.

MUCH INTEREST Being Taken in Approaching Demonstration.

Many farmers of South Christian are becoming interested in the plowing exhibition to be given on the farm of Mr. F. M. Pyle, about one mile south of the city, on the Palmyra road, next Tuesday and Wednesday, May 16 and 17. The plowing will be done with a Rumely kerosene oil pull tractor. The Rumely tractor is said to be one of the most complete and best known devices for furnishing power for plowing ever put in use and all interested should attend this demonstration. No doubt a large body of farmers will be on hand to witness this exhibition of mechanical power for farm work.

Shocked by Suicide.

Clarksville, Tenn., May 10.—The news of the tragic death of Harvey Turnley at his home in Nashville this morning came as a profound shock to his hundreds of friends in this city. Mr. Turnley visited Clarksville briefly several weeks ago. Apparently he was in good spirits, exchanging greetings with friends and seemed to be perfectly natural in his manner. In conversation with some of his friends he spoke of the fact that he had severed his connection with the American Tobacco Company, and that he had not definitely decided upon his plans for the future. There seemed nothing in his manner at the time to indicate that he was at all worried over business matters. Accordingly, when the news came that he had shot himself it was like a bolt out of a clear sky to his friends here.

HENRY COUNTY MAN Soliciting Support for Commissioner of Agriculture.

Mr. B. F. Hill, one of the three Democratic candidates for Commissioner of Agriculture, who is a farmer in Henry county, was in the city Thursday in the interest of his campaign. Mr. Hill is a prominent citizen of his county and has been active in matters pertaining to the Democratic county. He will be strongly backed by his district and is looked upon as the leading candidate in the triangular contest. He made a good impression here.

ON PUBLIC HEALTH.

Dr. J. G. Carpenter, of Frankfort, Will Lecture Next Monday Night.

Dr. J. G. Carpenter, of Frankfort, Ky., President of the Kentucky State Medical Association, will deliver a lecture on Public Health at the Circuit Court room at 8 o'clock Monday night, May 15, 1911, under the auspices of the Civic Improvement League. Admission free.

Quickly Caught.

W. J. Boone, aged 60, a discharged workman, has been arrested for sending night rider letters to B. W. Cove, Superintendent of the Henderson Wagon Works, threatening death if he did not leave town in ten days.

Fined, But Held

Several retailers of meat fish who attempted to sell their stores open last Sunday of the closing agreement with the butchers and the order issued by the mayor, were presented in court Monday morning and pleaded guilty, but the fine held up during good behavior. The closing order will be in effect until further notice.
